SIZE: 10,170sf, rooftop bar: 4,600sf

LOCATION: [Lincoln, Nebraska](#)

ARCHITECT: [Sinclair Hille Architects](#)

COMPLETION DATE: December 2012

The large overflow area, once known as Barry's Outback, has the most notable upgrades. Along with new raised seating and additional rest rooms; two new bar areas have been created. The Disco area provides dancing and DJ performances, while the 10 Below Bar features just that; a bar of ice to keep your favorite beverage cold.

Along with exterior façade enhancements, another new bar has been created on the roof. Barry's Roof Top Bar features gas-torch lighting and a great view of Memorial Stadium and the game day street activities. The newly renovated Barry's Sports Bar combines nostalgia of the past with the newly energized Haymarket area.
