SERVICE: [New Construction](#)

LOCATION: [Lincoln, Nebraska](#)

ARCHITECT: The Clark Enersen Partners

COMPLETION DATE: September 2014

A new heavy manufacturing facility featuring 100% overhead crane coverage and heavy lift gantry cranes. Flexible bus duct distribution of 4000 amp service for welding and equipment power. Welding gas distribution for 80 + welding stations and specialized equipment requirements. Multiple entry for inside unloading and loading deliveries and finished product.

"I have appreciated working with the very talented team you put together for this project. They worked through all of the challenges of this project, always approaching them in a positive, professional manner."

Jon Large

Lincoln Airport Authority – Deputy Director
