

## SOUTHEAST COMMUNITY COLLEGE - SERVICE CENTER

**DELIVERY:** [Design Bid Build](#)  
**INDUSTRY:** [Education](#)  
**SERVICE:** [New Construction](#)  
**SIZE:** 65,500sf  
**LOCATION:** [Lincoln, Nebraska](#)  
**COMPLETION DATE:** October 2011

Included in this project was the new open area entry to the SCC Campus in Lincoln creating the central hub for student services, but also multiple vocational-technical training programs in addition to the academic transfer program. Large open labs were created to accommodate programs in welding, mechanics, drafting, and culinary. The design incorporated durable, long-use materials throughout the project such as terrazzo floors.
