DELIVERY: [Design Bid Build](#)

INDUSTRY: [Education](#)

SERVICE: [New Construction](#)

SIZE: 53,000sf

ARCHITECT: BVH Architecture

COMPLETION DATE: December 2017

After a 2014 tornado took the elementary school in Pilger, this new elementary was built as an addition to the Wisner-Pilger High School in Wisner. The addition includes a gym, media center, preschool room and two classrooms for each grade (K-6). In the addition, many unique spaces feature materials that add depth and texture while offering places to display student work.
